Event programme

DAY 1 – November 19

TIME	TITLE	SPEAKER
13:50 – 14:00	Introduction	
First care for newborns		
14:00 – 14:20	Delayed cord clamping & hypothermia preservation	Cathelyne Hocq
14:20 – 14:40	SurfON results	
14:40 – 15:00	Why is it important to start enteral nutrition early?	Elena Maggiora
15:00 – 15:20	Q&A	
15:20 – 15:40	Break	
Ultrasounds use		
15:40 – 16:00	Optimization of insertion of venous catheter – Tip positionning – The NeoEchoTip protocol (umbilical, n-PICC, CICC, FICC)	Giovanni Baronne
16:00 – 16:20	An optimised insertion of venous catheter – Ultrasound use for Umbilical catheter placement	Vito d'Andrea
16:20 – 16:40	Lung Ultrasound for the diagnosis of neonatal respiratory distress	Nadya Yousef
16:40 – 17:00	Echo Guided Surfactant Administration	Virginie Maux Petit
17:00 – 17:20	Q&A	

DAY 2 – November 20

TIME	TITLE	SPEAKER
Workshops		
9:00 – 9:45	Optimization of insertion of venous catheter and Modified Seldinger Technique	Laura Fazilleau Roland Van Rens
9:55 – 10:40	The RAPEVA, RACEVA & RAFEVA protocol	Fiammetta Piersigilli
10:50 – 11:35	Neonatal Lungs Ultrasounds – In practice	Nadya Youssef
11:45 – 12:30	Factory tour – Gold option only	
Clinical nutrition and integration strategies		
14:45 – 15:05	Feeding Strategies in Preterm Infants: Medical vs. Nursing Perspectives	Stephanie Dagen
15:05 – 15:25	Is it possible to avoid parenteral nutrition in preterm infants?	Luca Maggio
